**Re: AES Coal-Fired Power Plant and Marine Cargo Handling Dock Facility
Administrative Order on Consent
Docket Number CWA-02-2015-3102**

Dear Chief:

On March 18, 2015 AES Puerto Rico LP ("AES-PR") and the United States Environmental Protection Agency ("EPA") entered into the above referenced Administrative Order on Consent ("AOC"), under which AES-PR is obligated to comply with certain requirements (AOC Section VII, Ordered Provisions). All capitalized terms in this letter shall have the meaning as defined in the AOC.

Since the effective date and effect of the AOC, AES-PR has addressed and completed all Ordered Provisions, including: conducting benchmark monitoring, preparing and submitting the corresponding MDMR forms, preparing and implementing a storm water sampling SOP, submitting a BMPs implementation report, preparing and submitting comprehensive site inspection reports for 2012 and 2013, preparing and submitting a detailed Plan of Action that included a Dust Control Plan for the minimization and control of dust from coal combustion residuals and Agremax, creating and hiring a Storm Water Coordinator position; and preparing and submitting Quarterly Progress Reports. At this time, all supporting documents demonstrating full compliance with the Ordered Provisions have been provided previously to EPA, in accordance with the requirements of the AOC.

Having complied with all Ordered Provisions of the AOC, as provided by AOC Section X - Termination and Satisfaction and our discussions held with Jose A. Rivera, Senior Environmental Engineer from EPA CEPD during the August 12, 2016 compliance inspection close-out meeting, AES-PR hereby submits this Request for Termination of the AOC.

We respectfully request EPA to advise AES-PR promptly should any concerns with this submission arise.

If you have questions or need further information, please contact me.

Cordially,
